

About Us

Mission

VNCP pursues being number one in Vietnam and the region in providing services on Resource Efficiency and Cleaner Production in order to contribute to the cause of sustainable consumption and production.

Vision

VNCP orients its activities to be an innovative organization, where employees work professionally in a friendly environment favorable for their career development. We always strive to apply Best Available Techniques and Best Environmental Practices in providing service packages promptly and with added values to clients.

Core Values

Members of VNCP family always:

- * Are in pursuance of the cause of sustainable production and consumption
- * Perform team work with full responsibility
- * Are willing to learn and be innovative
- * Show respect to and are willing to share with others
